### Description

eJobs is the largest online recruitment platform in Romania, with a database of over 4 million CVs. It was created from the desire to modernize classic recruitment methods and facilitate the employee-employer relationship.

On the main page, as a candidate, he can:

- search for a job by filling in the two fields (keywords + city), this is also a shortcut to the jobs section
- we can select the website **language**
- we can choose any of the following sections to receive new information (**jobs, activities, my CV, my applications, career, salaries**). Also by selecting the account name on the top right we can access the following sections:
- **Useful** (account setting, frequent questions)
- **Mobile** applications (android, iOS)
- **Actions** (saved jobs, hidden jobs, saved searches, followed companies)
- **My Account** (jobs, activities, my CV) , my applications, interviews, career)

As the app is still under development, this version will have limited features. Over a period, new ones will appear.
